What is a Greenprint?

Like a "blueprint" is a plan needed to build a house, a "greenprint" is:

- A plan to design and build the green infrastructure needed to meet residents' daily recreation, social and living needs.
- A plan to develop an interconnected system of urban open spaces - including parks, playgrounds, gardens, plazas, bikeways and sidewalks - as part of the redevelopment of the neighborhood.

What should be accomplished by the East Little Havana Greenprint?

Please check all that you feel should be accomplished

- Encourage opportunities for new parks
- Improve and expand existing parks and park programs
- Provide places to stroll and meet neighbors
- Link neighborhoods to local parks
- Link schools to local parks
- Encourage walking by making streets more pedestrian oriented
- Provide more shade by increasing the number of trees in the neighborhoods
- Increase natural and green areas
- Provide opportunities to showcase history, culture and art
- Provide access to the Miami River
- Other: _____

Established in 1972, The Trust for Public Land is a national nonprofit organization that conserves land for people. From vast natural areas to urban parks, TPL helps connect people to America's special places. TPL specializes in conservation real estate, applying its expertise in negotiation, public finance and law to protect land for public use. Since opening our South Florida office in 1991, TPL has helped protect many important sites – from expansive natural areas such as the Oleta River State Park and the Deering Estate, to urban parks such as Spring Garden Point and Arch Creek parks. Today, TPL is working to bring parks, gardens, playgrounds and green open spaces to our inner city neighborhoods, helping all South Florida residents enjoy the magnificent green environment surrounding us.
